

REDFIN

A Technology-Powered Real Estate Broker

William Blair 38th Annual Growth Stock Conference | June 14, 2018

Forward-Looking Statements

This presentation contains certain forward-looking statements within the meaning of federal securities laws, including statements regarding our future operating results and financial position, business strategy and plans, product, service, and technology offerings, market conditions, growth and trends, and objectives for future operations, including the future vertical integration of our service offerings, and the prospect of a digital closing technology.

We believe our expectations related to these forward-looking statements are reasonable, but our actual results may turn out to be materially different. Please see our filings with the SEC for more information on the risks and uncertainties that could cause actual results to differ materially from the forward-looking statements in this presentation. These risks include, among other things: that we operate in a seasonal and cyclical industry and may be affected by industry downturns; that we have a history of losses; and that our business is concentrated in certain geographic markets. Moreover, we operate in a very competitive and rapidly changing environment, and new risks and uncertainties may emerge that could impact the forward-looking statements in this presentation.

Additional risks and uncertainties that could affect our financial results are included under the caption “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017, as supplemented by our Quarterly Report on Form 10-Q for the three months ended March 31, 2018, both of which are available on our Investor Relations website at <http://investors.redfin.com> and on the SEC website at www.sec.gov. All forward-looking statements reflect our beliefs and assumptions only as of the date of this presentation. We undertake no obligation to update forward-looking statements to reflect future events or circumstances.

Our Story

Invented map-based real estate search

Hired our own agents

Mission: redefine real estate in consumer's favor

Our Market

\$80B in 2017 estimated U.S. real estate commissions

86,000 U.S. brokerages

Broken customer relationship

Value Proposition

**Agents on
Your Side**

**On-Demand
Service**

**More Exposure
for Your Listing**

**Tech at
Every Step**

**Save
Thousands**

Customers Save Thousands

*Cumulative savings when a customer both sells a \$500,000 home and buys a \$500,000 home via Redfin, assuming the traditional listing-agent fee and buying-agent fee are each 3%.

Redfin Sells Homes Faster, for More Money

SOURCE: SSRS study published January 5, 2018, comparing Redfin's 2017 listing performance to 55,568 comparable non-Redfin listings. Approximately \$3,000 is the average difference between the sale and list prices of Redfin listings versus that of comparable listings by other brokerages. Based on a study of 67,252 properties sold 2017.

52% Higher Customer Satisfaction

SOURCE: November 2017 survey of 1,837 people who bought or sold a home in the past year.

Service Drives Durable Growth

Higher Repeat Rate

Buyers Using the Same Brokerage to Sell The Home They Bought

Repeat Business Growth

2017 YoY Growth Rates in Closed Sales, Segmented by Source of Sale
