Exhibit Number	Description
99.1	Press release dated September 7, 2017

Redfin Second-Quarter 2017 Revenue up 35% Year-over-Year to \$104.9 Million

SEATTLE - September 7, 2017 - Redfin Corporation (NASDAQ: RDFN), the technology-powered residential real estate brokerage, today announced financial results for the second quarter ended June 30, 2017. All financial measures are presented on a GAAP basis and include stock-based compensation.

Revenue increased 35% year-over-year to \$104.9 million during the second quarter, including \$2.0 million from Redfin Now¹⁾. Gross profit was \$37.0 million, an increase of 35% over the second quarter of 2016. Gross margin was 35%, compared to 35% in the second quarter of 2016. Operating expenses were \$32.7 million, an increase of 25% from \$26.1 million in the second quarter of 2016. Operating expenses were 31% of revenue, down from 34% in the second quarter of 2016.

Net income was \$4.3 million, compared to \$1.4 million in the second quarter of 2016. Stock-based compensation was \$2.6 million, up from \$1.9 million in the second quarter of 2016. Depreciation and amortization was \$1.6 million, up from \$1.5 million in the second quarter of 2016. Assuming the conversion of outstanding shares of preferred common stock following our initial public offering, pro forma net income per share was \$0.06 for the second quarter of 2017.

"Redfin's market-share growth accelerated in the second quarter, in part because so many people have been visiting our website," said Redfin CEO Glenn Kelman. "Redfin.com visitors have grown at a higher rate over each of the past three quarters than in any quarter in the last three years. And more of those visitors are connecting with a Redfin agent because our technology lets those customers move faster to tour and buy homes. Technology also benefits our home-sellers, by promoting their listing to a huge online audience, and by driving long-term efficiency gains that help us charge less and still deliver better results."

Second-Quarter Highlights

- Accelerated market-share gains, serving 0.64% of U.S. existing home sales by value in the second quarter of 2017, an increase of 0.11 percentage points from the second quarter of 2016. The year-over-year gain for the first quarter of 2017 was 0.10 percentage points.⁽²⁾
- Increased visitors to our website and mobile application by 43% over the second quarter of 2016 to more than 24 million monthly average visitors, making Redfin the fastest-growing top-10 real estate website.
- Commissioned a third-party study to measure the speed of listing notifications, which showed that Redfin notifies customers about newly listed homes between three and 18 hours faster than other leading real estate websites. This advantage is the result of a streaming architecture that Redfin has developed over the past two years to notify customers about new listings, recommended listings, price changes, and home sales.
- Saved customers more than \$36 million in fees in the second quarter compared to what they would have paid with an aggregate 5% commission, while delivering a level of customer satisfaction that market-research firms have established is significantly higher than traditional brokers'.
- Increased the total number of subscribers to the Redfin Home Report, a monthly email estimate on what a home is worth, by 26%.
 The magnitude of such a gain over a three-month span is

significant given that Redfin has been accumulating subscribers since 2011, but much of it was a one-time gain that we got by inferring for the first time where a potential subscriber lives and whether she wants a home report. We believe subscriptions have also been increasing due to the accuracy of the Redfin Estimate, which uses artificial intelligence, cloud computing, and local data sets to estimate the value of a home for sale better than our competitors. A 2017 third-party study found Redfin's estimate was more than twice as likely as two other leading home-value estimates to be within 3% of a listing's final sale price.

- Increased the percentage of home tours scheduled automatically from 41% in March to 51% in June. Automatic tour scheduling lowers labor costs and makes it easier for customers to try Redfin, which drives growth. Most important, automatically scheduling tours often lets our customers move faster than other homebuyers to see and ultimately to buy the most desirable listings.
- Lowered the fee the customer pays to a Redfin listing agent from 1.5% to 1% in the San Diego area. Compared to the 2.5% fee often charged by traditional San Diego-area listing agents, Redfin's 1% fee saves customers about \$7,500 on the sale of a \$500,000 home. To offset the lower listing fee, Redfin increased prices for its San Diego-area homebuyers, which should result in the same revenue per transaction when averaged across buyers and sellers. Over the past two years, Redfin has rolled out this pricing to Baltimore, Chicago, Denver, Seattle and Washington, D.C. areas, modestly accelerating overall share gains. In Redfin's remaining markets, the company continues to charge customers 1.5% for the services of its listing agents.
- (1) Redfin Now is an experimental new service where we buy homes directly from home sellers and resell them to homebuyers. Revenue earned from selling homes previously purchased by Redfin Now is recorded at closing on a gross basis, representing the sales price of the home. For Redfin Now, cost of revenue includes the cost of homes such as the purchase price and capitalized improvements. There was no revenue from Redfin Now in any period prior to the three months ended June 30, 2017.
- (2) We calculate the aggregate value of U.S. home sales by multiplying the total number of U.S. home sales by the mean sale price of these sales, each as reported by the National Association of REALTORS®. We calculate our market share by aggregating the home value of real estate transactions conducted by our lead agents or our partner agents. Then, in order to account for both the sell- and buy-side components of each transaction, we divide that value by two-times the estimated aggregate value of U.S. home sales.

Business Outlook

The following forward-looking statements reflect Redfin's expectations as of September 7, 2017, and are subject to substantial uncertainty.

For the third quarter of 2017 we expect:

- Revenue between \$108.5 million and \$110.5 million, representing year-over-year growth between 34% and 36% compared to the third quarter of 2016. Redfin Now revenue between \$2.6 million and \$3.6 million is included in the guidance provided.
- Net income between \$10.0 million and \$10.8 million, compared with \$5.7 million in the third quarter of 2016. This guidance includes approximately \$2.8 million of stock-based compensation and \$1.7 million of depreciation and amortization. Stock-based compensation was \$2.2 million and depreciation and amortization was \$1.6 million the third quarter of 2016.

Conference Call

Redfin will webcast a conference call to discuss the results at 1:30 p.m. Pacific Time today. The webcast will be open to the public at http://investors.redfin.com. The webcast will remain available on the investor relations website for approximately three months following the conference call.

Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of federal securities laws, including statements regarding our future operating results and financial position, business strategy and plans, product, service, and technology offerings, market conditions, growth and trends, and objectives for future operations, home report subscriptions increasing due to the accuracy of the *Redfin Estimate*, technology driving long-term efficiency gains and service improvements, and statements under the header *Business Outlook*. We believe our expectations related to these forward-looking statements are reasonable, but actual results may turn out to be materially different. Please see our filings with the Securities and Exchange Commission for more information on the risks and uncertainties that could cause actual results to differ materially from the forward-looking statements in this press release. These risks include, among other things: that we operate in a seasonal and cyclical industry and may be affected by industry downturns; we have a history of losses; and our business is concentrated in certain geographic markets. Moreover, we operate in a very competitive and rapidly changing environment, and new risks and uncertainties may emerge that could impact the forward-looking statements in this press release. Additional risks and uncertainties that could affect our financial results are included under the caption "Risk Factors" in our final prospectus filed pursuant to Rule 424(b)(4) on July 28, 2017, which is available on our Investor Relations website at http://investors.redfin.com and on the SEC website at www.sec.gov. Additional information will also be set forth in our Quarterly Report on Form 10-Q for the three months ended June 30, 2017. All forward-looking statements reflect our beliefs and assumptions only as of the date of this press release. We undertake no obligation to update forward-looking state

About Redfin

Redfin Corporation (www.redfin.com) is a technology-powered, residential real estate brokerage. Founded by software engineers, we run the country's #1 brokerage website and offer a host of online tools to consumers, including the *Redfin Estimate*. We represent people buying and selling homes in over 80 markets throughout the United States. Our mission is to redefine real estate in the consumer's favor. In a commission-driven industry, we put the customer first. We do this by pairing our own agents with our own technology to create a service that is faster, better, and costs less. Since our launch in 2006 through 2016, we have helped customers buy or sell more than 75,000 homes worth more than \$40 billion.
