About Redfin

Redfin (www.redfin.com) is a technology-powered residential real estate company, redefining real estate in the consumer's favor in a commission-driven industry. We do this by integrating every step of the home buying and selling process and pairing our own agents with our own technology, creating a service that is faster, better and costs less. We offer brokerage, iBuying, mortgage, and title services, and we also run the country's #1 real estate brokerage search site, offering a host of online tools to consumers, including the Redfin Estimate. We represent people buying and selling homes in over 95 markets in the United States and Canada. Since our launch in 2006, we have saved our customers nearly \$1 billion and we've helped them buy or sell more than 310,000 homes worth more than \$152 billion.
